

PINpoint Essentials

The Ultimate No-Code MES Solution for Digitizing, Enforcing, and Tracing Every Process.

The Only No Code Out of the Box MES Built Exclusively for Discrete Manufacturing

At PINpoint, we don't just provide an MES solution—we deliver a specialized solution engineered exclusively for discrete manufacturing. This distinction isn't just about focus; it's about expertise, innovation, and delivering results tailored to industries like automotive, aerospace, heavy machinery, general industrial, and healthcare.

We don't compete with other MES providers—we stand alone. Here's why:

MES for Discrete Manufacturing is ALL WE DO

Unlike other MES providers, PINpoint MES is designed from the ground up to address the specific challenges of discrete manufacturing:

- **Expertise in serialized processes** ensures seamless alignment with your operations.
- An average of **10 years' tenure across our integration, engineering, and product development teams** brings unparalleled MES experience, ensuring unmatched support and innovation.
- **Purpose-built data model** designed specifically for discrete manufacturing.
- **Trusted by top global manufacturers** for process optimization, quality, and operational excellence.
- This specialization allows us to go deeper where others fall short—delivering **measurable, transformative results for your business**.

Fully Featured Solution with Unmatched Insights

Harness the power of actionable data with PINpoint Fastening, delivering real-time insights and control over your manufacturing processes.

- **Comprehensive Dashboard** – Visualize large manufacturing data sets with a focus on KPIs that matter most to your plant.
- **Fast and Targeted Analysis** – Filter data by date, shift, and line in just one click.
- **Error Identification & Trends** – Get a graphical breakdown of errors and track out-of-spec trends for proactive decision-making.
- **Detailed Lock & Resolution Insights** – Seamlessly switch between Level 1 and Level 2 lock types to pinpoint and resolve fastening issues.
- **Multi-Level Views** – Access high-level fastening overviews, detailed line insights, and key operator and product performance metrics.

Ensure accuracy, efficiency, and quality in your fastening operations with PINpoint's intuitive analytics platform.

A Trusted Partner Committed to Your Success

At PINpoint, we build partnerships to ensure measurable, lasting success.

- **Customer Success Program:** Personalized onboarding, health checks, and optimization plans to ensure ROI and growth.
- **Proactive Support:** Dedicated account managers and industry leading team for best practices to prevent issues.
- **Outcome-Driven Partnership:** Clear goals, progress tracking, and insights for optimized performance and results

With PINpoint, you gain more than a provider—you gain a partner who is fully invested in making your success our top priority

Let's Partner For Success

PINpoint MES is more than a solution—it's a catalyst for change in discrete manufacturing. Tailored to meet the unique demands of your industry, our system delivers swift deployment, actionable insights, and measurable ROI. By combining innovation with deep expertise, we empower businesses to overcome challenges, optimize operations, and achieve sustainable growth with confidence. Are you ready to unlock new levels of efficiency, quality, and productivity?

Choose PINpoint—the MES solution built exclusively for your industry.

We've helped our customers with...

94%

Reduction in bolted joint failures

7M+

in revenue recorded

33-40%

increase in throughput

“PINpoint MES is unbeatable! There is no better alternative when it comes to MES systems.”

-Quality Manager, Heavy Machinery

“Our business grew 260% over the last 24 months and we could not have handled the growth in a quality-controlled manner without the tools from PINpoint.”

-President, Hydraulics & Power Systems Manufacturing

“Been fantastic, service is there, continuous improvement happens, we are growing because of their product.”

-Quality Manager, Power Systems Manufacturing
